

FZUGO

服务于FZUer的校园导航

目录

01 项目界面原型

02 项目基础功能

03 团队分工

第一部分

项目界面原型

“FZUGO”的范围涵盖福州大学的整个校园，所有与校园相关的建筑、设施、道路均可在小程序中查询。软件将整合校园地图信息、用户定位技术、路径规划算法等，为用户提供多种选择的最佳出行路线。

项目界面原型

The background is a dark gray field featuring a complex pattern of light gray elements. A central horizontal line is populated with various musical notes, including eighth and sixteenth notes, some with stems. This line is flanked by two large, symmetrical, wavy shapes that resemble stylized musical staves or flowing ribbons. In the upper portion, there are several sharp, triangular shapes pointing downwards, and a few small, four-pointed star-like symbols. The overall aesthetic is modern and artistic, suggesting a theme related to music or creative design.

第二部分

项目基础功能

项目的基础功能基本满足师生对校园导航的需求，额外添加的功能也能实现智慧校园。

原型界面

首页

打开小程序进入首页界面，该页面展示了校园天气信息。从该界面可以进入学校简介页面，通过点击常用功能中的界面模块进入其他功能页面。

实时导航：

为用户提供准确的路径指引，帮助他们有效地找到校园内的各个建筑和设施。

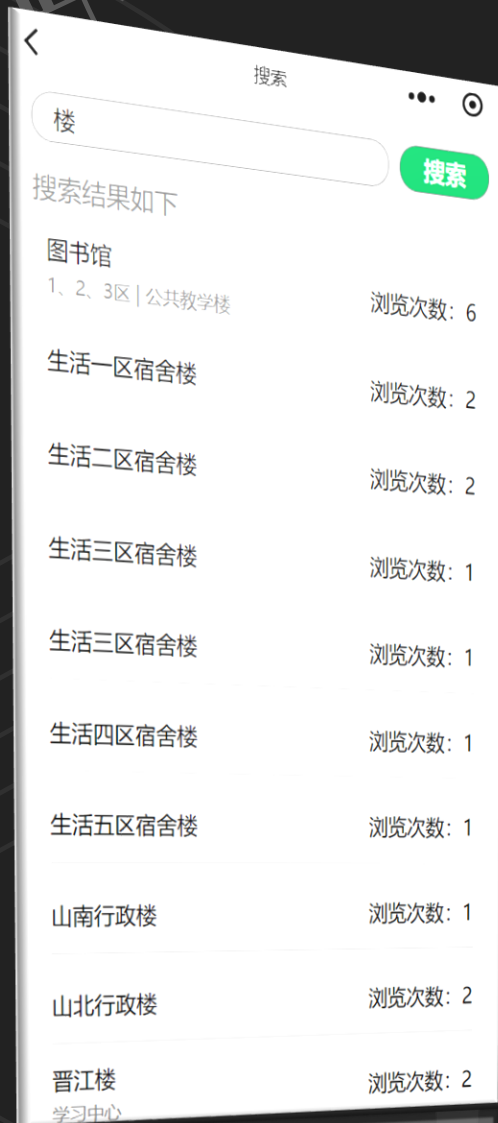

当前定位地点

校园指南

从导航栏选择“校园指南”可以切换到此页面，此页面罗列了一些校园的详细信息供用户查看

- 烧鱼指路 >
- 作息时间表 >
- 图书馆阅览室 >
- 快递 >
- 教务处 >
- 美食 >
- 交通出行 >
- 警务与保卫 >
- 就医 >
- 门禁 >
- 宿舍供暖 >

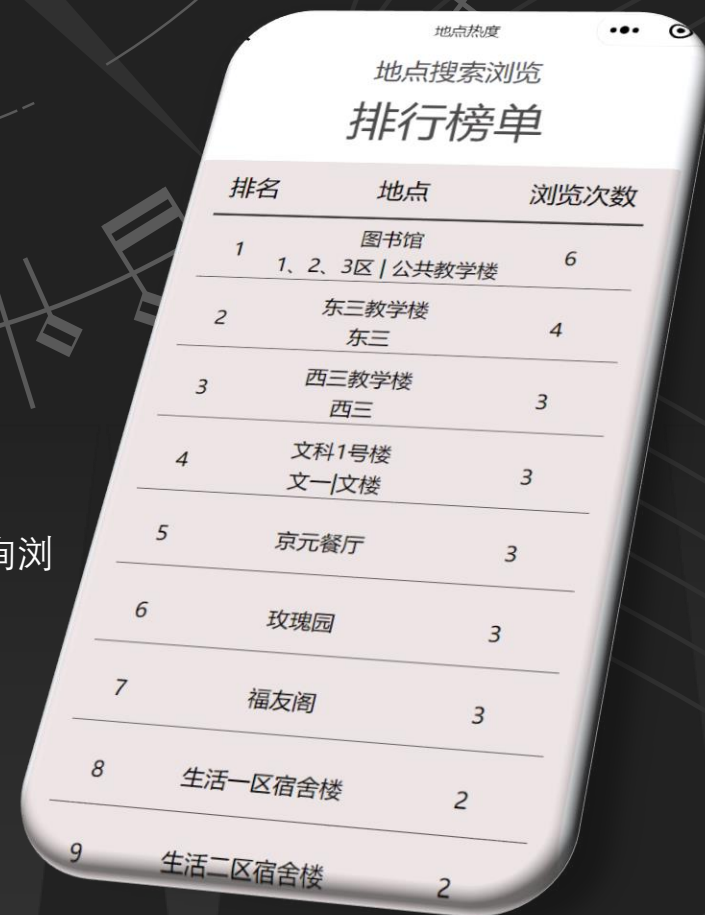

搜索功能：

允许用户通过关键词快速查找特定地点，提升查找效率。

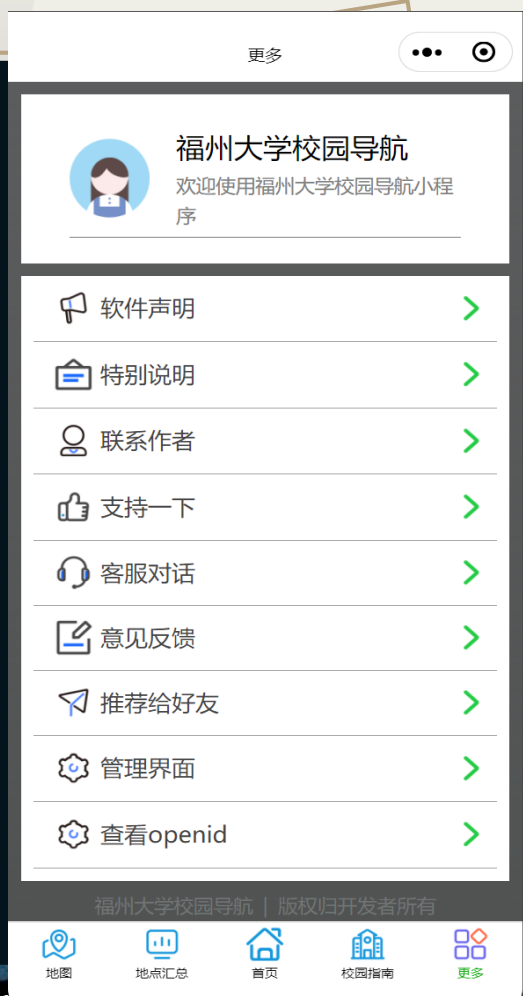

实时排名功能：

允许用户通过榜单查询浏览量最高的地点。

界面原型

更多

通过导航栏可以快速切换到此界面，
从该界面可以了解软件信息，分享，
推荐给好友和进行反馈，管理员可以
通过此界面进行调控。

第三部分

团队分工

组内分工通过专业化、明确责任和协作提升，增强效率和创新能力，确保项目按时高质量完成。

Student ID	Name	Role	Work Description	Contribution
832202127	唐宁蔚	Project Manager, Tester	Oversees the overall project phases, ensuring each stage is on track and meets deadlines. Responsible for organizing and managing team meetings, tracking progress, and maintaining project flow. Writes blog posts to document project updates and insights. Conducts testing to ensure quality and functionality of the mini-program.	10%
832201130	薛墨澜	Prototype Design	Responsible for designing the user information interface, focusing on intuitive layout and easy navigation to enhance user experience. Plays a key role in UI design, ensuring consistency and user-centered functionality across the application.	10%
832201126	谢荣城	Prototype Design	Leads the front-end interface design, ensuring a cohesive visual style and functional layout across the mini-program. Manages project tasks related to the front-end to keep development streamlined and effective. Plays a key role in implementing responsive design for various devices.	11%
832201219	周欣怡	Prototype Design, Field Worker	Designs the device management interface to allow users to monitor and control devices with ease. Manages project documentation, ensuring all design and development decisions are recorded. Participates in field data collection to ensure real-world accuracy in device management.	10%
832201113	张绍钰	Prototype Design	Develops the device map interface, creating an interactive map that displays device locations clearly and effectively. Responsible for quality control, ensuring that each interface component meets project standards and functions as intended.	11%
832202202	王希瑞	Back-End Engineer, UI/UX Designer	Designs the interface for adding devices, focusing on simplicity and user-friendliness. Leads back-end development, ensuring data is efficiently managed and securely stored. Collaborates on UI/UX elements to ensure seamless integration between back-end and front-end.	10%
832202208	刘丹妮	Back-End Engineer, Tester	Develops the device management backend, ensuring that data interactions are efficient and secure. Also works on embedded systems to optimize device performance. Conducts testing for stability and functionality, providing feedback for further improvements.	10%
832202213	吴杨顺	Back-End Engineer, UI/UX Designer	Designs the main overview interface, giving users an accessible summary of key features. Responsible for backend planning and management, ensuring that database interactions are stable and efficient. Collaborates on UI/UX design to create a cohesive user experience.	10%
832202214	张子晔	Field Worker, Data Gatherer	Designs the device information interface, focusing on clear and organized data presentation. In charge of promoting the product and gathering user feedback to improve interface usability and functionality. Ensures accurate data representation through real-world testing.	9%
832202209	寿宇浩	Field Worker, Data Gatherer	Conducts detailed campus surveys, collecting data on key campus routes and buildings to enhance navigation accuracy. Gathers popular campus route data, which is used to improve route planning within the mini-program. Supports data validation and integration into the app.	9%

第四部分

整体规划

通过细致的时间线安排、前瞻性的展望与灵活调整机制，确保项目各阶段紧密衔接，从而加速项目进程，提升整体执行效率与质量

日程表

Week1

需求分析与初步规划

团队讨论小程序的范围、功能和用户需求。分配团队角色和任务

Week2

系统设计与UI/UX原型制作

设计系统架构、API结构和数据库模式，设计小程序原型

Week3

前端和后端开发启动

前端工程师开始实现小程序的基本结构和UI组件。后端工程师开始处理服务器端逻辑和API端点。

Week4

持续开发与原型测试

继续前端和后端开发，集成高级功能。开始对初始原型进行功能测试和用户界面响应性测试。

日程表

Week5

优化与全系统集成

完成前端和后端的集成，优化用户体验。根据初步用户反馈优化用户界面。

Week6

测试与错误修复

对小程序进行全面测试，查找错误、性能问题和用户体验缺陷。修复错误，优化性能，为最终部署准备系统。

Week7

试运行与最终调整

向内部用户发布测试版。根据试运行反馈进行最终修改，解决剩余问题或添加最后的改进，为正式发布做准备。

An aerial photograph of a university campus. In the foreground, there are several large, modern university buildings with flat roofs and some green spaces. The middle ground shows more campus buildings and trees. In the background, a dense city skyline with many high-rise buildings is visible under a hazy sky. The text "THANK YOU" is overlaid in the center in a large, white, sans-serif font.

THANK YOU

致力于更好的校园导航
